Education

- Indian Institute Of Information Technology, Kalyani | B.TECH | 8.7 Aug 2018 - May 2022
- Adarsh Vidya Mandir, Bokaro, Jharkhand | CBSE | Science | 91% Apr 2016 - Mar 2018
- Adarsh Vidya Mandir, Bokaro, Jharkhand | CBSE (X) | 10.0 Apr 2012 - Mar 2016

Skills

C++ | Data Structure and Algorithm | Python | Django + DRF | Flask | OOPs | C | Linux | Windows | Html5 | CSS3 | javascript | jquery | Express JS | Bootstrap | Typescript | Sql | Git | Mysql | Keras | Pandas | Numpy

Work Experience

- Internship** | MAQ Software | Software Engineer | 2 Months May 2021- July 2021
- Worked on an application for our largest client which aims at bringing all distributed reporting streams into a single interactive framework.
 - Tech Stack** - Typescript, Python, Azure DevOps, Azure Databricks, SQL, Tabular, Azure Data Factory, Power Bi.
- Internship** | Algoladder | Backend Developer | 3 Months Jan 2021 - April 2021
- Created **Restful Api** of the live web application from scratch, Resolved many bugs, and added new features. Implemented **CRUD operation**.
 - Assisted and **improved the UI/UX** of the admin panel.
 - Tech Stack** - Django RestFrameWor , Django , Heroku , HTML , css , sqlite3 , web scraping, js
- Internship** | Banaao Maker's playground | Software Developer | 3 Months May 2020 - July 2020
- Developed full-fledged web application related to electronics and deployed in Heroku, also worked with Microsoft open sources project.
 - Tech Stack** - Node Js, Html5, CSS3, Firebase and google bucket, Heroku.

Projects

- Republic Of Coders** | Web App | [Git App](#) Mar 2021 - July 2021
- It is a short Of E-library for my college which contains books, notes, regular updates of Competitive Coding Contest, Learning content for Dev and Cp with daily updates of the problem using a cron job. Users with credentials can upload and edit data.
 - Tech Stack** - Django, Mongo DB, google drive API, code forces API, clist API, HTML, CSS, javascript, web cache.
- Annotation of English News sentence Septic Or Not | CNN Model** | [Git](#) Sept 2020 - May 2021
- Trained a model with 2400 English sentences and achieve 88% of testing accuracy of CNN models.
 - Tech Stack** - Python, CNN, Keras, TensorFlow, pandas, NumPy, NLP, Deep Learning.
- Pocket Medical** | CNN Model | Web App | [Git App](#) [Cnn-Model](#) Dec 2020- Mar 2021
- Trained CNN model with Wound/Cuts images data with 93.7% accuracy and merge with a web application with features like - Detecting severity, Finding near(hospital, medical), QR code info, Save Your medical record.
 - Tech Stack** - Django, CNN, Keras, TensorFlow, pillow, pandas, here map API, geocoding, Deep Learning.
- 100 days of ML code** | [Git](#) Sept 2020 - Dec 2020
- Tech Stack** - Python, Jupyter-Notebook, Keras, Scikit-learn, TensorFlow, NumPy, pandas, matplotlib.
- IPL Discord Bot** | Script | [Git](#) Sept 2020 - Oct 2020
- It is live in discord as it retrieving the current score, schedule, point table, and batsman list
 - Tech Stack**- Python, web scrapping, discord.py.

Academic and Extracurricular Achievements

- Achieve 3rd position in Codacharya 2021 (Inter College Coding competition).
- Google HashCode 2021 India Rank:- 807/3913 and Globalrank:- 2982/9004.
- Won 1st position in Version Beta hackathon under code Asylum Category.
- Runner up in Unscript Hackathon 2k20.
- Certificate of Participation of coding competition in amity university via code chef (onsite round).
- Qualified in the first round of google code jam 2020 [4.2 pts](#).

Positions of Responsibility

- Institute Innovation Council (IIC) - IIIT Kalyani - Member
- Member of placement cell of IIIT Kalyani.
